

NAMI Colorado Mission:

“The mission of NAMI Colorado is to build communities of recovery and hope by educating, supporting and advocating for individuals affected by mental illness and their families.”

NAMI Colorado Vision:

NAMI envisions a world where all people affected by mental illness live healthy, fulfilling lives supported by a community that cares. To that end, in Colorado, we are building a lively, robust network of programs and services to support local communities to effectively provide advocacy, education, support, and public awareness.

NAMI Colorado Race and Intersectionality Commitment Statement

Mental health and well-being, at its core, ensures no person experiences inequity or discrimination. NAMI Colorado, as an organization committed to anti-stigmatization and healthy lives, must be intentional in dismantling racism as part of our journey to mental well-being for all. We must be accountable to persons of color where our commitment to anti-racist structures, policies and practices are authentic, clear, inclusive, and void of any power structures that exclude any community, especially communities of color.
